Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

The City has worked very hard to implement all of its SRRE programs and has added seven programs. This is a very small City with only a few businesses and no real industrial businesses. The City has a solid waste committee that has been meeting on a regular basis. The programs selected in this report are a result of their meetings. A lot of residential customers currently use commercial bins and have chosen not to participate in the recycling program. The recycling programs were provided to both businesses and residential customers but many didn't participate. The City believes that by processing the loads in a MRF from those customers who are not participating in the existing programs they will be able to recover more materials for recycling.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

The City has asked for a three year extension because they feel it will take that much time to implement the programs and see the results of the new programs.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

Current diversion is at 37%. The city has implemented 33 of its SRRE/HHWE programs and added the following seven programs to its 2000 annual report:

1060-SR-MTE - Material Exchange, Thrift Shop
2060-RC-GOV - Government Recycling
2070-RC-SNL - Special Collection Seasonal (Regular)
4010-SP-SLG - Sludge (sewage/industrial)
4090-SP-RND - Rendering
6000-PI-PLB - Product and Landfill Bans

- 4. Provide any additional relevant information that supports the request.**

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.

Attach additional sheets if necessary.
